Tip of the Month Revision Log

Use ACE's Revision Log Pane (Layout ribbon> More > Revision Log) to track how refreshes to ACE Plug-in rows affect model results. The Revision Log allows users to track changes to BY results for the user selected rows with the ability to record time-stamped details identifiable to each user. Rows tracked in the Revision Log are visible to all users who open the session.

Enhanced Self-Paced Training

Self-Paced ACEIT training just got better! The ACEIT for Model Builders course now includes instructional videos to offer a more comprehensive training experience.

In an effort to enhance the [Self-Paced ACEIT training](#), you can now view an instructional video for each module in the ACEIT training course. Each video is narrated by one of our certified ACEIT instructors.

The ACEIT for Model Builders courses now includes; a hard copy training manual, electronic student files, instructional videos and instructor tutoring hours.

Call or email our [ACEIT Training Coordinator](#) (805) 964-6963 x2571 and let her register you for our enhanced Model Builders Self-Paced training.

New Online Help Article Integrated Models with the ACE Plug-in

In our most recent Online Help article, we discuss how using the ACE Plug-in can help build integrated ACE models. The plug-in allows users to import results from a source ACE model which can be easily referenced with Unique IDs. The plug-in also allows users to refresh the imported data so their session quickly and easily reflects changes made to the source data.

Support Alert: ACE SP2 JSON Release

A [Support Alert](#) has been issued for a bug found in ACE 8.0 SP2-002, JSON Release (build 132.9). When a row with a spread total phasing method (BE, W, RY, TS, TC, % or MS) also has a the Calculation Time Period set to "Monthly", ACE reports a total Point Estimate value that is double the expected value.

A hotfix for this issue will be released within about one month. The hotfix will also contain a solution for another [Support Alert](#) where in any SP2 build (132, 132.5, or 132.9) monthly sunk costs are ignored in some situations.
