Gold Status and Competency

Tecolote Research, Inc. Achieves a Microsoft Gold Application Development Competency

Tecolote Research, Inc. demonstrates best-in-class capability and market leadership through demonstrated technology success and customer commitment.

Santa Barbara, CA, USA — Feb 15, 2013 — Tecolote Research, Inc., today announced it has attained Microsoft Gold Application Development competency, demonstrating a "best-in-class" ability and commitment to meet Microsoft Corp. customers' evolving needs in today's dynamic business environment and distinguishing itself within the top one percent of Microsoft's partner ecosystem. In Tecolote's tenth year as a member of the Microsoft Partner Network with Gold status, Tecolote has demonstrated expertise with Microsoft technologies and proven the ability to meet customers' needs.

"By achieving a gold competency, partners have demonstrated the highest, most consistent capability and commitment to the latest Microsoft technology," said Jon Roskill, corporate vice president, Worldwide Partner Group at Microsoft Corp. "These partners have a deep expertise that puts them in the top 1 percent of our partner ecosystem, and their proficiency will help customers drive innovative solutions on the latest Microsoft technology."

The Microsoft Partner Network helps partners strengthen their capabilities to showcase leadership in the marketplace on the latest technology, to better serve customers and, with 640,000 Microsoft partners in their ecosystem, to easily connect with one of the most active, diverse networks in the world.
