JACS 7.3a1 Now Available!

A new version of the Joint Analysis of Cost and Schedule (JACS) is now available. Numerous enhancements and new features have been added to the software including:

- Improved charting ability with new chart customization options
- Definition of cost interpretation for time-independent (TI) and time-dependent (TD) costs
- Reporting results in Base Year (constant), Same Year (real) or Then Year (current) dollars
- New Risk Factors feature lets you model risk events as a factor of the impacted task(s) with a probability of occurrence

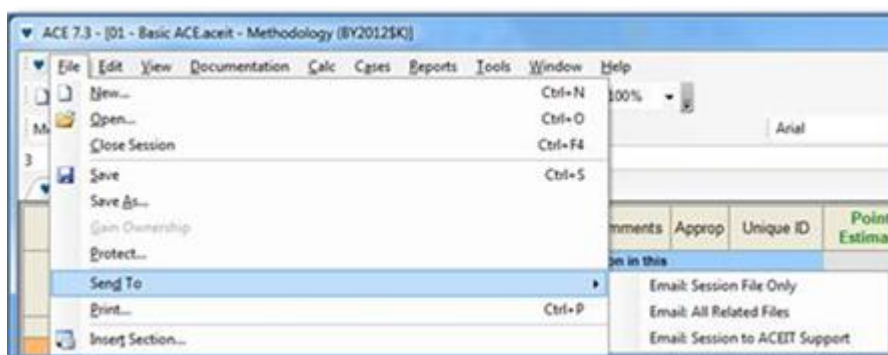

Click [Downloads > Software Patches](#) to download the install files.

You must login to aceit.com and your DMS must be current to download the files. JACS requires Microsoft Project 2007 or 2010 and ACEIT 7.3a.

Tip of the Month

Did you know that you can send your ACE session to someone else without leaving the software?

The **File > Send To** option allows you to send your ACE session to another user or directly to ACEIT Support if you have a question. In addition, your POST cache file can be sent if you select the All Related Files option.

****Updated** 2013 Inflation Indices**

The Air Force released revised inflation guidance that is now available for download from aceit.com.

Additionally, newer NRO rates have been added. As usual, the download contains all the system inflation indices for ALL services and appropriations. Please download this file from the [Inflation Indices](#) page located in the Support>Downloads section of the website. If you are having problems logging into the site, please contact ACEIT_Sales@tecolote.com for assistance.

Follow the instructions on the [2013 Inflation Indices webpage](#) to install the new indices.

Please contact [ACEIT Support](#) if you have any questions.
