"Every problem has a solution. You just have to be creative enough to find it."
- Travis Kalanick

New Hotfix Available!

A couple compelling issues associated with the ACE to ACE plugin and RI$K overrides were recently reported to the ACEIT support team. After determining these issues required a quick response, we issued a new Hotfix, labeled 8.0-003. This hotfix is now live and available on ACEIT.com. In addition to the two main issues, this hotfix also resolves a number of small issues with minor/very specific crashes, calculations/results, reports, and UI.

Visit ACEIT.com>User Resources>Downloads>Software Updates> ACEIT Hotfix 8.0-003 for more information about the hotfix as well as the download link. Download and installation instructions are posted with the hotfix. Please look at the notes carefully; install instructions depend on which updates you already have installed on your system.

New Online Help Article: CER Libraries

Looking for government CERs? The CER libraries have been shifted to secure log-in websites and are no longer distributed via ACEIT. The ACEIT Librarian still provides a mechanism to create your own CER libraries, however, the process for importing the CERs into your ACE session has changed. In our new online help article titled, “Inserting CERs from the Librarian” we review the following:

- Differences between CERs in 7.5 vs 8.0
- How to enter user-defined CERs into the Librarian
- Define the process for inserting user-defined CERs in ACE 8.0,
- Tips on sharing custom CER Libraries and introduce JIAT CER Libraries

Log in to learn more at ACEIT.com/user-resources/online-help and please email ACEIT_Support@Tecolote.com with any comments, feedback, or ideas you have for our next article!

Support Alerts

We have updated our Support Alerts for ACEIT 8.0. Here you will find solutions to some of the most common issues regarding installation of ACEIT. These can be accessed at ACEIT.com>User Resources>Support Alerts. This section will continue to be updated as we discover and resolve additional concerns.

ACEIT for CER Developers Class

Our ACEIT for CER Developers class aims to walk you through the process of developing a Cost Estimating Relationships, from raw data to a validated CER. Apply the power of data analytics to expertly perform regression. This entails learning about data collection, validation, normalization, generating and validating a CER, and characterizing the uncertainty. You will dive into the process of running a regression analysis and learn different regression methods. Get hands on use of ACEIT's CO$TAT to perform quick and powerful data analytics.

This class is for any analyst interested in gaining a strong foundation in regression analysis. The class is 2-days, scheduled for January 22, 2020, and won't be offered again until much later in the year, so sign up today!

ACEIT 8.0 Training Now Available!

Upcoming Training Schedule: Enroll Today!

Class Name	Date	Location
ACEIT for CER Developers: CO$TAT	1/22/2020	Washington,DC
