"Develop a passion for learning. If you do, you will never cease to grow"
- Anthony J. D'Angelo

Attend our ACEIT for Model Builders class October 15th!

The ACEIT for Model Builders class is our brand new class and is recommended for all users. This class gives a detailed overview of how to create models in ACEIT 8.0. For our ACEIT 8.0 training classes we've developed a brand new case study using an unmanned air vehicle or flying drone to teach how to use ACE, CO$TAT and POST. The course curriculum was redesigned to highlight best practices and methods to take advantage of the new additions to the 8.0 software. A specific set of topics and module listing is available at https://aceit.com/training-center/training-options/open-training. Whether you are a seasoned 7.5 user transitioning into 8.0 or a brand new user working in 8.0 for the first time, this class has much to offer.

We highly encourage you attend on October 15th in Washington, D.C. This specific class is scheduled to be taught by the ACEIT Program Manager, Melissa Cyrulik who has over 22 years' experience teaching ACEIT. Even if you don't have ACEIT 8.0 installed on your machine yet, this class will give you a head start in learning the new software. For those of you planning your fall training activities please note that our next scheduled open registration Module Builder class is in December.

**Melissa Cyrulik,
ACEIT Program
Manager**

Welcome to ACEIT 8.0 Webinar recording available on ACEIT.com

In case you missed it, the recording of the Welcome to ACEIT 8.0 presentation from the ICEAA Technology Showcase webinar series is now posted on our website. This presentation gives an hour long introductory overview of the new features in ACEIT 8.0. The presentation highlights the new features to assist new, experienced and reviewer users for ACE. This can be found on ACEIT.com>ACEIT Suite>Welcome ACEIT 8.0. In addition to the recording, there are also supporting documents such as a pdf version of the presentation and the Transitioning from ACE 7.5 to 8.0 flier. These resources are great for getting acquainted with ACEIT 8.0.

ACEIT 8.0 Training Now Available!
