New Online Help Article: Writing Intuitive Unique IDs

If you are new to planning and architecting an ACEIT model this article is a good place to start. Scattered throughout your model, the naming conventions you use for ubiquitous Unique IDs might have a bigger impact when planning your session than you think. We discuss why it's worth it to plan your Unique IDs and their contribution to an organized, easy to review, and intuitive model. You'll learn about:

- Unique ID Syntax Rules
- Unique ID Concept Definition
- Unique ID Suggestions
- Changing a Unique ID

Hotfix Available - Download Now!

As a reminder, Hotfix 8.0-003 is now available for download from the ACEIT website. This Hotfix resolves several issues with the ACE to ACE plugin and RI\$K overrides. Don't miss this opportunity to download the new Hotfix now!

Visit [ACEIT.com>User Resources>Downloads>Software Updates> ACEIT Hotfix 8.0-003](https://aceit.com/User_Resources/Downloads/Software_Updates/ACEIT_Hotfix_8.0-003) for more information about the hotfix as well as the download link.

Support Alert

Issue: ACE 8.0 Unique ID Replacement Should Not Be Case-Sensitive
Date: 01/15/2020
Application: ACE
Version: 8.0

Problem: The Unique ID replacement functionality should find all instances of a specific Unique ID regardless of case. Currently, it is searching in a case-sensitive way and will miss instances that have the exact same character string but some letters are a different case (upper/lower combination).

Solution: If Unique ID errors occur when calculating, check for missed Unique ID replacements. These replacements will need to be made manually. This will be corrected in the next release of software.

ACEIT for Model Builder Class

Do you have questions about how to use ACEIT? Our training classes offer the best opportunity to speak to expert modelers and learn from their vast experience.

Sign up today for our ACEIT for Model Builder Course, an introductory course designed for students that want to build cost estimating models for their projects. Students will receive hands on experience building an estimate in ACE. At the conclusion of the class students will be able to construct a WBS, develop and work with CERs, build estimate equations, incorporate learning curve, time phase your estimate, apply inflation, run 'what if' drills and more.

The Model Builders course is 4-days, scheduled for February 25-28, 2020, so [sign up](#) today!

ACEIT 8.0 Training Now Available!

Upcoming Training Schedule: Enroll Today!

Class Name	Date	Location
ACEIT for Reviewers (v8.0)	02/11/2020	Washington,DC
ACEIT for Model Builders (v8.0)	02/25/2020	Washington,DC
ACEIT Advanced Model Building (v8.0)	03/17/2020	Washington,DC
Power Analytics for DoD Cost Analysis	05/19/2020	Washington,DC
