

"One thing a person cannot do, no matter how rigorous his analysis or heroic his imagination, is to draw up a list of things that would never occur to him"
- Thomas Schelling, Harvard Political Review

Tip of the Month
Custom Inflation Tables

If you receive an ACE Session with stored Custom Appropriations but don't have the inflation table they were originally stored in, you can export them into your own Custom Inflation Table. In ACE, navigate to **File > Options > Inflation > Session Stored Appropriations >** and click **Export Custom Appropriations**. From there, select an existing Custom Table to add these appropriations to. You can access the appropriations in another ACE session by applying the updated Custom Inflation Table under **File > Session Options > Inflation > Custom Inflation Table**.

Inflation Indices Available on ASAFM website

Policy Change: DoD inflation and escalation indices for 2021 provided by the Joint Inflation Calculator (JIC) are marked as Controlled Unclassified Information (CUI). CUI can only be distributed via a secure government website. Therefore, an ACEIT System Inflation table for the Army, Navy, and USMC is now available on the Army Financial Management & Comptroller website at: <https://www.asafm.army.mil/Cost-Materials/Cost-Tools/>. This is a CAC-enabled site.

Please see our User Resources > Downloads > Inflation Indices > [2021 Inflation Indices](#) page for more information and contact ACEIT_Support@Tecalote.com with any questions.

New Online Help Article
Custom Inflation Tables

Within the ACEIT Suite is the ability to apply necessary inflation and escalation factors for cost normalization. In this month's Online Help article, we detail how to create and use your own Custom Inflation Tables, as well as the differences between Custom and System Tables.
