

ACEIT Mechanics Training provides a one-on-one training environment on ACEIT features/techniques to directly solve your specific problems. Through this offering we can provide hands-on training to first-time users in implementing an ACE cost model; help convert Excel (or other) models to ACE; provide guidance on cost model enhancement; and provide advanced training on key tools and concepts like JACS, CO\$TAT, and model automation using functions.

The Following are Typical Areas of Focus for ACEIT Mechanics Training

Cost Model Implementation

- ✓ ACE Rapid Start
- ✓ Converting Excel Models into ACE
- ✓ Cost Model Structure Review
- ✓ Monthly Calculations
- ✓ ACE Cost Uncertainty
- ✓ Implementing Best Practices
- ✓ Improving Model Performance
- ✓ Presenting Estimate Results
- ✓ Using 3rd Party Tools with ACE

Schedule Model Development

- ✓ JACS Cost/Schedule Uncertainty
- ✓ Scheduling in Microsoft Project or Primavera P6
- ✓ Analyzing Joint Confidence Level (JCL)
- ✓ Supporting Schedule Risk Analysis (SRA)
- ✓ Improving Model Performance

Libraries / Statistics

- ✓ Creating Custom Inflation
- ✓ Using CO\$TAT to Develop CERs
- ✓ Using the Librarian

Development / Automation

- ✓ Exploiting Functions in ACE
- ✓ Creating Custom Reports in Excel
- ✓ Using the ACEIT API
- ✓ Building Custom Plug-Ins
- ✓ Custom Applications/Utilities

If you would like more information regarding our mechanics training please contact ACEIT Training at aceit_sales@tecolote.com or 281-333-0240.

ACEIT Applications

Availability

ACEIT is a U.S. Government funded product available through Tecolote Research, Inc.

Licensing

The ACEIT Government Program Office has tasked Tecolote Research to recoup a fair share of the ACEIT distribution, maintenance and support (DMS) costs from each U.S. Government ACEIT site. An annual DMS fee entitles U.S. Government organizations and their support contractors to ACEIT distribution and technical support. All other agencies and companies have to purchase an ACEIT software license.

Automated Cost Estimator (ACE) is the estimating portion and heart of the ACEIT application suite; it is a model-building tool.

Cost and Statistical Analysis Tool (CO\$TAT) is a statistics package that has been designed for the cost/price analyst containing key features found in most major statistical applications.

Program Office Support Tool (POST) allows for quick reporting, charting and what-if drills in Excel.

Joint Analysis of Cost and Schedule designed to quickly create probabilistic results for schedule and costs in an integrated Microsoft Project or Primavera P6 schedule.

ACEIT Librarian is a powerful tool enabling any office to automatically build and maintain methodology libraries and custom inflation tables. These libraries can then be accessed by other ACEIT applications.
